MORGAN'S CANAL BILL

It Provides for Construction and Appropriation of $180,000,000.

A BOARD TO MANAGE

Secretary of War Made President and Eight Citizens to Assist at Salaries of [illegible]000 per Year Each. The Army Will Control.

Washington, Dec. 11.—Senator Morgan has introduced his bill providing for the construction of the Nicaragua canal. The bill provides for an aggregate appropriation of $180,000,000, of which $5,000,000 is made immediately available, and such other amounts as are needed from time to time.

The control of the canal and of the canal belt is vested in a board of eight citizens of the United States, in addition to the secretary of war, who is to be president. These members of the board to be paid a salary of $8000 a year each, and they are to be chosen regardless of political affiliation.

There is a provision authorizing the establishment of a regiment from the regular army on the canal belt to guard it properly, according to the powers granted by the government of Nicaragua and Costa Rico.

There is a provision making three divisions of the canal during its construction, and there is to be a chief engineer and two assistants on each division, the chief to receive a salary of $6000 and the assistants $3000.

Senate's Executive Session.

Washington, Dec. 11.—At the senate's executive session Tuesday Senator Hoar presented the report of the committee on judiciary recommending the confirmation of Attorney General Knox. He made a brief statement referring to the protests against confirmation as made by the Anti-trust league, but said that after giving careful attention to this representation the committee had divided to recommend confirmation.

No opposition was voiced, but action on the nomination was postponed by common consent. The senate then took up the isthmian canal treaty.

Senator Lodge said the new Hay-Pauncefote treaty does away with all the objectionable features of the treaty of the last congress. It abrogates the Clayton-Bulwer treaty of 1850, which, he said, had stood constantly in the way of the construction of an isthmian canal. The abrogation of this treaty, he contended, was a most important accomplishment and he did not believe at the United States should or would se an opportunity to make secure that concession.

Senator Culberson asked Mr. Lodge if it was not true that artivle 8 of the Clayton-Bulwer treaty establishing the general principle of neutraliation [illegible] ined in the new agreement. WONDERFUL CAVE.

Prehistoric Dwelling Place Found in the Rockies in Montana.

Butte, Dec. 11.—A new cave that gives promise of developing into the most wonderful of its kind in the known world has been discovered in the mountains about forty-eight miles east of Butte, in Jefferson canyon. Its extent is as yet unknown, though it has been explored for a distance of ten miles, and to a depth of about 800 feet. The entrance to the cave, which is near the track of the Northern Pacific railway, and about 1600 feet above the bed of the river, was discovered a few weeks ago by a hunter, and the cavern has just been explored by a party.

Several skeletons were found in one of the many rooms, and many articles and utensils of stone and copper were lying about, some of which have been brought out. The skeletons are of people of gigantic stature, and the belief is that the cave was the abode of a prehistoric people, and that further exploration will bring to light proof of that fact and more remains of its inhabitants.

A theory is that by a sudden change and disturbance of the earth the entrance to the ancient home was closed and the inhabitants walled up and left to die. A large river, with a fall of 100 feet at one place, is one of the wonders of the cave, and a score of apartments, some hundreds of feet in extent, are decorated with the wonderful formations of nature. One room resembles the interior of a cathedral, with a gigantic pipe organ.

Access to the cave is very difficult, as a direct descent of 400 feet is necessary before any footing can be secured. Another party will shortly visit the cave, fully equipped for a thorough exploration.

A Serious Wreck.

Brenham, Tex., Dec. 11.—A railway accident resulting in the death of Fireman Elkins and the severe scalding of Engineer Stevens occurred at Bellville Tuesday morning. The Kansas City fast freight started north from Bellville yards and a southbound freight destined for Galveston was standing on a sidetrack. The conductor of the Kanasas City fast freight, thinking the track was clear, started on his route. Either maliciously or the result of an accident the switch was turned so as to throw the Kansas City fast freight on the swithch instead of the main line, the Kansas City train crashing with terrific force into the standing on the sidetrack. Both trains were double headers. Three of the freight locomotives were badly wrecked.

Shooting in Oklahoma.

Mangum, Ok., Dec. 11.—Rush Ardry was killed, Garrett Thurman shot in the back and may die and L. S. McDonald shot in the left shoulder in a saloon row in the village of Port, Washita county. The men had taunted the bartender, Sam Pepper, one of them jumping upon the bar, when Pepper opened fire.

Killing at Mexia.

Mexia, Tex., Dec. 11.—Ed Speight, who lived near Canaan Switch, south of here, was killed on the main street of this town. Two charges from a shotgun were fired at him, one of which entered the breast and the other the hip. He died in about 40 minutes. A. F. Jordan, who also lives at Canaan Switch, was arrested.

Miss Mattie Oneal is on the sick list.

We are glad to say that Miss Cora Horton is up again after several days' illness.

Dr. Bev Harrison and Miss Zula Isbell surprised their many friends by getting married Sunday evening. Dr. Harrison is a popular young physician, raised in Grimes county and formerly lived in Bryan. The bride is one of the most charming and lovable young ladies in the county.

Mr. Charley Maxwell left today for north Texas.

H. Oneal, S. M. Mahle and Geo. Veteto are off for Bryan today.

Some of our people are attending the flower show at Houston.

BRAIN-FOOD NONSENSE.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part, Yet, however good your food may be its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel bouyant and vigorous. You can get Dr. G. G. TREATY IS CRITICISED

Senators Culberson and Bacon Call Attention to Defects.

NOT AS GOOD AS OLD.

They Assert Several Important Safe Guards Have Been Omitted—Mr. Choate Has No Intention of Resigning Just Now.

Washington, Dec. 11.—For 20 minutes to-day the senate was occupied with routine business and then went into executive session to consider the Hay-Pauncefote treaty.

When the senate went into executive session the new Hay-Pauncefote isthmian canal treaty was taken up. Senator Culberson spoke briefly in criticism of it. He was followed by Senator Bacon, who made a somewhat extended argument against it. Senator Bacon criticised the treaty as unamerican and said it contained many objectionable features of the original agreement, while it was entirely unsafeguarded, as the old treaty had been, by the senate amendments. He said he would not obstruct ratification of the new treaty.

Choate Will Not Resign.

Washington, Dec. 11.—Ambassador Choate is not to resign his post at the court of St. James. It is true that up to the time of President McKinley's death matters were slowly shaping so that Mr. Choate would return to this country to enter the cabinet, and Whitelaw Reid, editor of the New York Tribune, would be invited to accept the English mission. How soon these changes would have come it is impossible, of course, to say.

Mr. Roosevelt was not a party to the suggestion to Mr. Choate. Whether he is disposed to carry it out or would prefer to let matters rest as they now are cannot be stated in any authoritative way.

Judges Reappointed.

Washington, Dec. 11.—At a conference between the president and Attorney General Knox, the president decided to reappoint the following United States Judges:

Arizona—Associate Justices, George R. Davis, Fletcher M. Doan, and Richard E. Sloan.

New Mexico—Chief justice, W. J. Mills; associate justices, John R. McFie and Frank W. Parker.

Oklahoma—Chief justice, John H. Burford; associate justices, Bayard T. Hayes and H. B. H. Burwell.

Leo E. Bennett was reappointed United States marshal for the northern district of Indian Territory.

To Discuss Anarchistic Legislation.

Washington, Dec. 11.—Judge Ray, chairman of the judiciary committee, has called a meeting of the committee for the purpose of taking up the question of restricting anarchy and anarchists and the formulating an anti-trust measure will be discussed informally.

River and Harbor Committee.

Washington, Dec. 11.—River and harbor committee will meet next week and shape programme for considering the river and harbor bill.

Cannibalism in Philippines.

Washington, Dec. 11.—Cannibalism has appeared among the crimes charged against the Filipinos by American military authorities, according to the record of court martial in the department of Viscayas, P. I. Raymundo Fone, a native, found his working companion, Liberato Benliro, sleeping in his (Fonte's) boat. Fonte became enraged and killed the slumbering man with the blade of an oar, cut off his nose and ... according to his own ...

burglars made an attempt to rob the safe of the First National bank at Felicity, O. The explosion awakened Thomas Donald, who opened fire on them. The burglars fled. They had blown off the outer doors of the safe.

University Destroyed.

Wooster, O., Dec. 11.—Fire of an unknown origin here destroyed the main building of the University of Wooster. Loss estimated at $250,000. Insurance about $70,000.

Irish Nationalists Return.

New York, Dec. 11.—John F. Redmond, Thomas O'Donnell and Patrick A. McHugh, Irish Nationalists, who came to this country to solicit subscriptions to the United Irish league, have sailed for Europe on the Oceanic.

Gerst's Hearing.

Buffalo, Dec. 11.—City Treasurer Philip Gerst's hearing, upon an order to show cause why he should not be removed from office for alleged misconduct in office, was begun before Mayor Diehl. Gerst, in a written statement, presented by his attorney, pleaded to charges that a shortage existed.

Application for Clemency.

Washington, Dec. 11.—Application for clemency for Miss Eastwick, the American girl in prison in London for "raising" a railroad bond, has been forwarded to the United States embassy at London.

Slim Chance for Recovery.

Washington, Dec. 11.—Mrs. Ada Gilbert Dennis, who was mysteriously assaulted in her apartments Tuesday, is hovering between life and death. She shows some improvement, but her chance for recovery is slight.

ANOTHER BIG CONCERN.

Corporation Formed Seeking Control of Some Southern Railroad.

Trenton, Dec. 11.—There was filed papers for a corporation under the laws of New Jersey Here which apparently is intended for a combination like that embraced in the charter of the Northern Securties company, which is absorbing the securities of northern railways. The title of this new corporation is the Southern Securities company. It is substantially the same as to object, powers and privileges as the Northern Securities Co. Its nominal capacity is $100,000, but it can increase the amount at its pleasure. Who and what are behind this new charter are not disclosed on its face.

The charter states that the objects for which the corporation is established are to construct, operate and control transportation undertakings, terminals and facilities to develop any properties, undertakings industies, enterprises or companies for transportation by land or water in any states and in any or all foreign countries.

"In some quarters it was believed that the new charter was for the purpose of carrying into effect one of many railroad combinations which have been recently talked of."
